VALVE RETURN FORM FOR HAZARDOUS/NON-HAZARDOUS MATERIAL FORM 5-13

RMA NUMBER	CUSTOMER NAME
SALES ORDER NUMBER	CUSTOMER ORDER NUMBER

NOTE: All valves being returned for rebuilding or evaluation and have been in applications where the media has a health hazard rating of 1 or greater, as noted on the Material Safety Data Sheet, **must be decontaminated before return. Valves must be flushed and returned in the OPEN POSITION. Material Safety Data Sheets and this decontamination form** must be received before an RMA number will be issued. Services, which are **non-hazardous**, and for which no Material Safety Data Sheet exists, shall be **noted** on the **Return Material Authorization. Fill out the decontamination form and return to your inside sales rep so your RMA can be processed.**

SERVICE CONDITION STATEMENT:

The last material to flow through this VALVE was _____ @ Psi _____ Temp _____

Note: Specify chemical name.

Applicable Box must be checked:

☐ Above material is hazardous as defined by OSHA 1910, 1200 (Hazard Communication Standard). A Safety Data Sheet (MSDS) **MUST** be completed and attached to the packing slip copy of this form.

☐ Above material is **NOT** hazardous (as defined by OSHA 1910, 1200 (Hazard Communication Standard)).

I certify that the above material identification and information is correct to the best of my knowledge, and that the valve being returned has been properly decontaminated before
The valve is being returned to Flo-Tite.

Name (Please Print) _____ Phone No: () _____

Signature _____ Date _____

NOTE: Failure to complete all the above within 30 days will result in a product being scrapped. Flo-Tite will not evaluate the valve; the customer will be responsible for all charges incurred.
